**Reduces
Labor Cost**

Tongue Towed

Need to travel from one location to another?

Makes Travel Easier

Patent Pending

Convenience

"Quick Attach Swivel"™ Driveway / Trail Groomer

Direct Mount Quick Attach Swivel models connect directly to the rear of tow vehicles. Groomer has no wheels, no frame, no tongue. Simply lift it when traveling from one location to another. 72" wide and 84" wide models available. Connects and disconnects (to tow vehicle) in less than 60 seconds. Mounts on vehicles with 1.25" or 2.00"

"Quick Attach Swivel" QAS™

Trail Groomer

So you built a walking - biking trail. Now what? Maintaining trails requires equipment designed for ease of use, lowering labor costs, and effectiveness on aggregate. Our Trail Groomer has been extensively tested on many types of aggregate. Most successful on materials 1.00" diameter or smaller. **"Loosens and Levels".**

Build It Your Way with **"Quick Drop Off" Implements**

For those who need the convenience of "easy travel" our direct mounted "Quick Attach" models remove burden of tongue towing a groomer or having to trailer it to go from one location to another. Quick attach models are easier to use on trails. No other company has achieved this type of engineering for use on Trails.

Direct Mount Quick Attach

"Quick Attach Swivel" QAS. Rear mount "Quick Attach Swivel" groomers connect and disconnect in less than 60 seconds. You can still use your tow vehicle for other uses. When it's "grooming time" attaching the groomer is quick & easy.

Rear mount "Quick Attach Swivel" groomers swivel when you groom creating a nicer finish. We've combined rear quick attached and swivel technology that no other competitor has accomplished.....it's an engineering feat only mastered by Heying Company.

Swivels When You Groom

TR72 Tongue Towed Field Finisher Models
