

Making a Superintendent's Job Easier.

Pulverize Aeration Cores & Incorporate Top Dressing

with the MG72 Multi Groomer and

Do the Math!

Save Labor!

Saves Labor!

"Takes the Dread out of Coring Greens"

When it's time to pull plugs on golf greens the MG72 Multi Groomer pulverizes aeration cores without needing to verti-cut or use any other tools like steel drag mats. It's guaranteed to cut labor costs. Pulverizes cores in less than 5 minutes per green. Mow right behind the MG72 to clean up the grass tufts and you're ready to Top Dress.

9 Hole Course + 1 Putting Green			
Old Way		MG72	
Function	Hrs.	Function	Hrs.
Core 10 Greens	7	Core 10 Greens	7
Mount Verticut Blades	2	Pulverize Cores with MG72	2
Verticut Cores	5		
Drag Cores <small>Drag Mat or Cocoa Mat</small>	4		
Mow	2	Mow	2
Top Dress	3	Top Dress	3
Incorporate <small>Drag Mat or Cocoa Mat</small>	4	MG72 Incorporate	2
Total Hrs. =	27	(10 Holes) Pulverize Cores & Incorporate with MG72 = 11 Less Hours of Labor	16

Hours of labor shown represent data compiled during actual coring and top dressing sessions. Results may vary due to type of coring equipment used, size of greens, weather conditions, etc.

18 Hole Course + 2 Putting Greens			
Old Way		MG72	
Function	Hrs.	Function	Hrs.
Core 20 Greens	14	Core 20 Greens	14
Mount Verticut Blades	2	Pulverize Cores with MG72	4
