Need to travel from one location to another?

Makes Travel Easier

Patent Pending

Convenience

"Quick Attach Swivel"™ Multi Groomer

Direct Mount Quick Attach Swivel models connect directly to the rear of tow vehicles. Groomer has no wheels, no frame, no tongue. Simply lift it when traveling from one location to another.

Connects and disconnects (to tow vehicle) in less than 60 seconds. Mounts on vehicles with 1.25" or 2.00" rear receiver hitches and 3 Pt. Lift for sub compact Tractors.

Performance meets Convenience.

"Quick Attach Swivel" QAS™

Multi Groomer *for Turf*

The Multi Groomer is a versatile 72" wide maintenance machine for use on Synthetic and Natural Turf. Standard Implements include two rows of staggered + adjustable spring tines (front) followed by our exclusive high performance broom carriage.

Stands up matted down turf while it combs and grooms.

Redistributes infill and prolongs turf life.

Synthetic bristles designed for turf and long lasting.

Helps smoothen and dethatch natural turf fields.

It is truly a "Multi Groomer".

Did You Know...Infill Can Fly!

Of course you did. You've seen it on TV. You will also see "infill in motion" when grooming synthetic turf with the MG72 Multi Groomer.

Users are always shocked when they see what's in their turf. Metal track spikes, bobby pins, safety pins, nails, and other objects create hidden dangers to athletes and degrade synthetic turf.

For those who need the convenience of "easy travel" our direct mounted "Quick Attach" models remove the burden of tongue towing a groomer (or having to trailer it) to go from one location to another.

"Quick Attach Swivel" QAS. Rear mount "Quick Attach Swivel" groomers connect and disconnect in less than 60 seconds. You can still use your tow vehicle for other uses. When it's "grooming time" attaching the groomer is quick & easy.

Rear mount "Quick Attach Swivel" groomers swivel when you groom creating a nicer finish. We've combined rear quick attached and swivel technology that no other competitor has accomplished.....it's an engineering feat only mastered by Heying Company.

Why This Groomer?

Great for reviving matted down sports turf. Easy to Use. Pull with variety of tow vehicles or choose Direct Mount Quick Attach QAS. Artificial Turf. **Is NOT maintenance free. It also doesn't have to be complicated or hard to do. Properly groomed turf prolongs it's life and provides the ultimate playing surface for athletes.**

Natural Turf. Fields require more than just mowing. They commonly need the overused center areas to be groomed, dethatched and leveled.

Helping Those Who Help Others Play!
Give Them the Playing Surface They Deserve.
